

ETC Upgrades

If your theater lighting or rigging system is 20, 15, 10 or even five years old, it may be time for an ETC Upgrade.

Middleton, WI 53562

Is it time for an ETC Upgrade?

Have you wanted to update your theater, studio or house of worship to include LEDs, automated rigging, and other emerging technologies, but thought your current lighting and rigging products – or your budget – couldn't handle it? The cost-conscious and stress-free ETC Upgrades program puts your dream system within reach!

What you get through ETC Upgrades:

- For current Sensor® dimmer users: A thorough cleaning, upgrade and recommissioning of your ETC Sensor rack, with a new three-year or optional five-year factory warranty on the entire rack!
- The color flexibility, energy savings and brightness of modern LED luminaires
- Simple yet powerful control of conventional, LED and moving lights
- The safest, smartest and most affordable rigging system possible
- A future-proofed system installed in record time... without a complete retrofit!

You can contact your local ETC service provider to discuss options. More information about the ETC Upgrades program can be found at
